1, What Cleaners or Solvents were used for
Metal Cleaning
Equipment Cleaning
Machine Cleaning
Wash Rack

Ex - Alkaline Soap
etc., or Solvents

#6, Get a description from products

~~$ Bldgs~~

4+05 has on Computer

in b/t go to Bldg 52

2 PPII & Deburring Sumps are same

uses alkaline Soaps

— Equip-clean & other clean

was Steam cleaner Slab

used Acid cleaners + Soaps Solvent Stripper

Wash Rack = Steam Slab

Cleaner = Alkaline Soap + water

Sol oil = Coolant

boiler — everything from this goes straight to the sewer

Cooling Tower — (Blowdown)

still pump sumps

#4. Chip Compactor - Coolant
+
Oil

Waste water Prob = Mud + Water
↙
not waste water

#6. Waste Treatment
