Our write -ups were done on Friday and I didn't think to ask Jim and Roger to check with you or someone on the spreadsheet. From what I remember of the spreadsheet, the verbiage on status summary was pretty minimal, so using the write-up we were familiar with that had what was being asked made sense at the time. If you have something in that spreadsheet/Access database that is more recent, add it into the doc I sent and we'll finish compiling. We may need to touch base again on who to list as the main POC for each topic. I'm not sure at what level HSCD would want to place that POC title.

Rick Rogers, Associate Director

I'll look at it. I was hoping you would pull from the spreadsheet.

For the record – While Andrea does a superior job with all things PFC related, Sue Haug gets the credit for the spreadsheet (now Access database).

Deb

Deb,

I got your email. Attached is the list of all topics sent with write-ups for a number of things related to drinking water embedded in the original list. Jim and Roger put together write-ups for the PFC topics/sites on the list. I added Steve's paragraph at the top as an opening summary. If HSCD wants to add anything to what's already there, feel free to add it directly to this document and send it back. We'll put it in the format requested and send this through our C2 who is coordinating WPD's input. All the write-ups were essentially taken from the master summary/briefing document Andrea is maintaining. So, if there was a more recent version of that, we may not have captured the most up to date info if anything changed recently.

Thanks,

Rick
