Thanks, Pat. The email address I was given for Jeremiah Johnson must have been wrong. I got a bounce-back message from DEP's email server for him. I called and left him a voicemail asking the same thing I asked in the email message.

Some of my be forced to work from home on Thursday and call in on the teleconference number due to the victory parade for the Eagles Superbowl win. The parade will goe right by our office building and the City is expecting upwards of 3 million people attending it.

Scott,

For the meeting with Chemours on Thursday, I just got the teleconference number this afternoon. It is:

Conference phone number: Ex. 6 Personal Privacy (PP) **Conference ID:** Ex. 6 Personal Privacy (PP)

As far as the video teleconference link-up, I was able to get the link info for WVDEP's unit from our communications folks here in Region 3 and they gave me Jeremiah's name as the contact for setting it up. Jeremiah, is the unit number still Ex. 6 Personal Privacy (PP) I heard that the last time we tried to connect to that unit, the network was down and the connection didn't work. It might be a good idea to run a test connection. If you want to do that, contact James Robson at 215-814-5656 to coordinate the test.

Once you confirm the unit number, I will pass that on to the EPA folks in Washington, DC who are hosting this VTC connection.

Walt, Pat Murphy – if you want to sit in via VTC, I guess you'll have to crash WVDEP's conference room. But, you can use the teleconference number above if you don't want to make the trip across the River.

Below is the list of Chemours attendees and current draft agenda. The meeting is scheduled to run from 1:30-3:30 pm.

Chemours Attendees

Karl Boelter – Chemours , Fluoroproducts Manufacturing Director
Ed Sparks – Chemours, Director Corporate Strategy
Sheryl Telford – Chemours, Director, Environmental, Health and Remediation
Kathleen O'Keefe --Chemours, Director, Product Sustainability]
Sean Uhl – Chemours, Global Manufacturing Technology Manager, Fluoropolymers
Andrew Hartten, Chemours, Principal Project Manager, Corporate Remediation
Amber Wellman , Chemours, Technology Manager, Chemours Fluoroproducts Analytical

John Savarese, Wachtell, Lipton, Rosen & Katz, outside counsel
Ralph Levene, Wachtell, Lipton, Rosen & Katz, outside counsel
Joel Gross, Arnold & Porter, outside counsel
Brian Israel , Arnold & Porter, outside counsel
Larry Culleen, Arnold & Porter, outside counsel
Allison Rumsey, Arnold & Porter, outside counsel

Dr. Damian Shea, Professor, Department of Biological Sciences, North Carolina State University

Revised agenda:.

1. Background of Chemours
2. Background of GenX
3. Analytical chemistry developments
4. Fayetteville Facility Update --what has the plant been doing since June 2017?
5. Update on Washington Works and Chambers Works efforts related to GenX
6. Calculated risk assessment/health effects of GenX and NC DHHS advisory
7. Administrator's December 4th announcement re PFAS inter-agency project

Rick,

These are the two folks that will participate from the office as well as Walt Ivey from PBH. Either of the gentleman below can get you the information you need for the VTC. Please also send me a call in number if possible so I can call in and listen from out of the office since I will be at a meeting.

Pat Campbell 304-926-0499 ext 1046
Yogesh Patel 304-926-0499 ext 1014

OK, I will supply the call-in info and VTC info to you and Yogesh. For VTC for whomever back in the office will tie in, we'll need a contact name and info on the link ID for your VTC unit.

>> Hi Scott,
>>
>> My Office continues to work with your staff in WVDEP's Underground Injection Control (UIC) program to re-approve the State's primacy program. There are a number of

questions that remain to be resolved regarding the State's regulations, program policies and guidance. We think it would be a good idea for some of my staff to travel to Charleston to meet with the appropriate WVDEP staff/managers to work through the remaining questions we have and lay out next steps. We are proposing a two-step process for this. Before holding the face to face meeting, we propose to hold a webinar or video-conference with the appropriate people at WVDEP to review the primacy re-approval process which includes federal codification of the State's UIC regulations, to review the current status of our work with WVDEP, and to summarize the remaining set of questions EPA has on WV's UIC regulations, policies and guidance. Following that webinar/videoconference, we would like to meet face to face to work through the remaining questions so that we can rapidly move to re-approve WV's UIC Primacy Program.

We would organize the webinar/videoconference and the face to face meeting with WV staff/managers to be held after January 1, 2018.

As we understand WV's UIC Program, three different groups within WVDEP have responsibilities to implement the Program: Oil and Gas, Water and Mining. Can you provide names and contact information for the managers/staff in all three WVDEP Divisions that you would want us to work with to finalize EPA's primacy re-approval of WV's UIC program? My staff will then contact them to start the scheduling process.

Thanks for your help on this. As I have said before, we are willing to assist WVDEP as much as we can in document gathering and document prep (like the program MOU and program description) to ease the burden on WVDEP.

Thanks,

Rick
