Dear Water Quality Advisory Committee members and participants,

This is a follow-up to yesterday's discussion about the DRBC Nutrient Criteria Plans. As we discussed, I am providing several items in preparation for a future special meeting on this topic in September (date to be identified under separate doodle poll). The provided items are as follows:

1. The existing nutrient criteria plan (December 2013) is posted on the DRBC web site at https://www.nj.gov/drbc/library/documents/nutrients/del-river-estuary_nutrient-plan_dec2013.pdf
2. The draft revised nutrient criteria plan (November 2017) is attached.
3. The draft response to comments on the November 2017 nutrient criteria plan is attached.

4. The Task Order to ANSDU to review and prioritize non-DO nutrient endpoints is attached. Please note that the Notice to Proceed was issued on March 27, 2019 so we anticipate a draft report at the end of July 2019. Based on the discussions yesterday, we will provide the draft report to this group when we receive it, and we will hold off on any further direction to ANSDU on this product until after the September special meeting.

Thanks for your engagement on this important topic.
