Hi Katie,

Attached please find a compiled list of activities and products in support of the existing use project. I hope this is helpful. Let me know if you have any questions and if you would like us to come in for a meeting to discuss any of these items in more detail.

Thanks,
John Yagecic

Subject: RE: Hold the Date WQAC meeting Nov. 14th

Hi Katie,

We received a draft report for Task Order 6 on August 6th. We are in the process of reviewing that now. Our plan is to provide some recommended minor edits to ANSDU and have them submit a revised draft. That version will be shared with the Water Quality Advisory Committee. We're hoping to have the revised draft by the end of August to send out to the full WQAC list (including EPA). We are planning on allowing a 90-day period for the WQAC to comment on the Task Order 6 report including discussion at the September 30th meeting.

Let me spend a little time pulling together a curated list of reports, resolutions, and descriptions of effort supporting the eutrophication model and nutrient criteria plan. I'll try to send this your way by the end of the week. I would also offer that it might be worthwhile for us to come to EPA for a meeting to discuss this effort.

Thanks,
John Yagecic

Hi John,

I am looking forward to hearing updates on the nutrient criteria plan at the September 30th meeting. Are you able to provide a status update on Task Order 6 which requested that the Academy of Natural Sciences of Drexel University develop a prioritized list of non-DO estuary nutrient endpoints that could inform nutrient criteria selection? If this work product was completed are you able to share a copy with EPA? In addition, is there a page on your website that compiles or lists the Task Orders and Resolutions related to the nutrient criteria plan and eutrophication model? I have found a few items on this page of publications https://www.state.nj.us/drbc/about/public/drbc-publications.html but I am wondering if there is a more direct way to access a complete selection of the Resolutions and Task Orders related to the nutrient criteria plan and eutrophication model.

Thanks,
Katie Bentley

Subject: Hold the Date WQAC meeting Nov. 14th

Dear Water Quality Advisory Committee members and participants,

Our next regular WQAC meeting will be held on Thursday, November 14, 2019 in the afternoon at DRBC. I'll send out a separate MS Outlook invitation for those using Outlook.

I'll send an agenda and remote participation instructions when the meeting is closer.

We have multiple WQAC meetings in the fall, so to help keep things straight here is the full lineup:

- September 30th – special meeting on nutrient criteria plan
- November 14th – regular meeting that replaced a meeting canceled due to conflict with WRADRB
- December 5th – shorter meeting with eutrophication model expert panel

Thanks,
John Yagecic
