Hi guys -

John told me that he shared with Jim that OPP was close to finalizing the letter addressing the waste water issue and that Jim requested an update during today's staff meeting. Sounded as though Dave provided a pretty good summary of where things stood but John didn't think Jim took the briefing off the table and asked that I reach out to you guys to start trying to get something going. If we are going to do something – we'll need to brief soon as we probably only have this week and next to do it.

I pulled up our last briefing document and made a few edits and attached here for us to start working on.

I can set up a time today or tomorrow for us to talk and to get this going but am wondering Candace if you might check in with Dave to get his thoughts. At this stage it probably is more of an ECAD lead and might not hurt for someone to confirm with Jim that the briefing is still needed.

Let me know what you guys think.

Jamie

Hello Julie –

Attached is the briefing document for Thursday's meeting with Jim. Please let me know if you need anything else.

Thanks!
