Jamie—although Dr. Wu-Smart has yet to respond to the additional questions that I have sent her regarding the nature of the bee kill incident, I submitted an initial report to the Incident Data System (IDS). The IDS number assigned to the incident is: IO33742; the Excel spreadsheet and the string of emails from Dr. Wu-Smart [sent to beekill@epa.gov] associated with the incident are included in the IDS.

The attached pdf is a public comment on the proposed interim decision for the neonicotinoid insecticides; this document contains residue data from the Nebraska Department of Environmental Quality.
