Subject: Update - AltEn

Erin – This email is a follow-up regarding the status of AltEn (Mead, NE). This past Monday, I spoke to Jeff Edwards and Annette Kovar regarding the site. They informed me that TCLP pesticide sampling was conducted on the grain/seed during Spring/Summer 2019, the waste material is managed as non-hazardous waste, and it being disposed at the Butler County landfill (David City, NE). Attached is a copy of the sampling results. I contacted Daniel LaMaistre (NDEE – Waste Permit Section – Land Divison) and will forward any additional info once received. Please contact me, if you have any questions.
