Subject: FW: DRAFT Agenda-Full SFIREG (June 2019)

DRAFT
Dear Colleagues,

Attached please find the draft SFIREG agenda for the June 3-4th meeting. The main topics of interest, as well as issue papers, white papers, and actions for the full committee currently on the agenda are as follows:

Main Topics:

1. Dicamba – 2019 Growing Season
2. Pesticide Use on Hemp
3. UAVs
4. Special Local Needs 24 (c)

Papers for consideration and action:

5. Issue paper: *Crop Cover Issues and Plant-Back Restrictions*
6. White paper: *Future of POINTS (Pesticide of Interest National Tracking System)*
7. Letter to EPA (December 2017)*: Pesticide Use on Cannabis – State Established Pesticide Residue Action Levels*

Please start thinking about presenters and any other topics you would like to discuss with SFIREG. As a reminder, SFIREG operates under a grant, and as a result their chairperson puts together the public agenda to meet their priorities. If there are topics you would also like to discuss in a closed leadership meeting, please let us know ahead of time so we can craft the closed session agenda accordingly. That said, SFIREG will also cover aspects of these same items in the public session allowing states to have an open dialogues and share information publicly on their issues of concern.

My team will schedule an early May "walk-through" of the agenda with SFIREG, but I wanted to provide this draft as early as possible to aid in discussions at the pre-meeting in May.

Regards,

Jackie
