FYI I found both the PFECA-A and the PFECA-F in my lab neat. I have very little of the PFECA-A but enough to do this work. I have several grams of PFECA-F so I should be fine.

Thanks. Mark

Hi Mark & James,

We do have these standards in our lab and please let me know if you need me to send you some (0.1% in water). I also want to thank you both for speaking with me and agreeing to further investigation on this isomer issue. Thanks.

Best Regards,
Lam
