Subject: Minnesota mining permits
When: Thursday, January 07, 2016 10:00 AM-11:00 AM (UTC-06:00) Central Time (US & Canada).
Where: kevin's office

Ann would like to go through possible permit approaches and language using minntac, Dunka, and Peter Mitchel/northshore as examples. She said they will provide ambient and effluent data (some but not all for this discussion); draft permit language and fact sheet language. This will be focused on wild rice in light of the legislative action. She said it is clear from what they will provide that the data documents they are above standards. Sounds to me like they got a push from someone. She will be sending a call in number. She expects to have the spreadsheets and draft language to us by Jan 4.,
