**Subject**: 2019 GW Monitoring Rpt for Hydro Extrusions, Cressona, PA
**Attachments**: Cressona Facility GW Rpt Review 3-2020.pdf

Hi all –
EPA reviewed the Subject GW Report, which recommends reduced GW monitoring at that Cressona Facility in PA.
I reviewed it and have attached my comments on the Report. To summarize, EPA agrees with reduction in GW monitoring at the Facility and recommends significant GW monitoring reduction, based on the data in the GW Report. Feel free to discuss this more with me if you like.
