Subject: Re: contact info and nomination

Mike: As a follow up to your message today, I would very much be interested in being nominated for the EPA Educator award. I have attached a short statement of the relevance of our research to such an award as well as a CV. In the research statement I have tried to emphasize the breadth of our studies that are relevant to environmental issues. I can provide the full publication list and if you want but it is a big folder. Let me know if you need more information. Thanks again for thinking of our work on this. jim

> Mike: left a message on your answering machine. I am flattered that you suggested nominating me for Environmental Educator award. I dont usually think of myself as an environmentalist but certainly the teaching and research are relevant to the environment. At any rate I will be around today so please call and we can discuss. You can also send info to this address. All the best. jim
