Subject: Labadie 316(a) final draft comments

Hello,

Attached is the (almost) final version of the questions I plan on submitting to Ameren for the 316(a) thermal variance at the Labadie Energy Center on Monday, 11/25 at 9 AM. I have revised some of your comments to provide action items or stipulating a review or comment is necessary. I tried to stay true to your comments and hope my minor revisions continue to represent what you meant. I am out on Friday (tomorrow) which was a last minute decision due to personal obligations, so please have all additional comments, revisions, or last minute changes to me by 3 PM today or at the latest, 8 AM Monday. If you have not been but would like to be invited to the external meeting on Monday, please let me or Heather know. You may also submit comments or questions to Heather.Peters@dnr.mo.gov tomorrow.

Karen and JD,
The Department will continue to welcome the Services and EPAs comments when you have them completed. I can submit them to the facility at any time.

Thanks,
Pam

Pam Hackler
