It was still a mess because we edited the same text. I accepted my changes. Can you work from this latest version to see if there are any remaining issues?

I give up. Every time I try to save my edits, Word says there are conflicts. Please tell me when to review it, or better yet, just send me the file via email. I don't want to look at it in Sharepoint anymore. Thanks.

I'll need to look at this again after FOB has finished editing it. Let me know when that happens. Thanks.

Thanks, Lea. So I made edits while Erik was editing and now I've got a mess. I was suggested the following rewrite of this sentence:

EPA believes that this issue would be more appropriately addressed during consideration of any potential risk management actions following completion of EPA's risk evaluation for asbestos, pursuant to TSCA section 6(b)(4), in the event of an unreasonable risk determination.

Good afternoon Tanya, Brian, and Tom,

Attached for your review is an OMB significance determination request for the asbestos SNUR, which according to the schedule, we should be sending to Peter Smith in RCS today. OGC has already reviewed.

Please let us know if you have any comments.
