Bob,
Are you going to followup with the people who have sent in reports to ask if they will resend their images/videos?
Just a thought. Since I am responding, I could ask for that if you want me to.
Cheers,
Mary

Subject: Seresto Collar caused my dogs death

Hello Mr Miller

Sending you this email per the Canine Central information.

I had my little Pomeranian, called Baby use this collar. I put it on her the beginning of May 2020 at the recommendation of the vet. We had used generic Hartz collars a long time ago, the little bottles for the back of neck, and Braveto pills. Never saw issues before this. The past Memorial day weekend, she had a seizure. Rolled over as if dead. We massaged her and she came back. The end of June, she was having issues, but never thought it was the collar. SHE died July 7. From July 3, she was very lifeless. She wouldn't eat, stopped drinking, and was not herself. Didn't take her to the vet for lack of funds and COVID issues.

I had adopted her from the Humane society in 2009 after someone abandoned her on the side of a road. She had lymes disease and had been abused. We got to love her and spoil her for 11 years. They estimated her to be between 4 and 7 when we got her. She was always spunky and full of life before Seresto.

I just wanted to add my story to the list of those other dog owners. Thank you for listening.

Ex. 6 Personal Privacy (PP)

Her last day alive. She died on her pillow at 10 in the morning on July 7, 2020.
