Jay,
I forgot to follow up on this email. Did Nick find out anything regarding the downward pipe by the metal outbuilding? – Ex. 6 PP / Ex. 7(C)

Nick from City of Portland's Bureau of Env Services is checking on a last detail about the metal outbuilding and what appeared to be a discharge point. It might have been chiller condensate, he's checking.

Let me know when enough is enough or I will keep copying you.
