DPM 2359-1 + -3 Hardener

Hardener

1/80 DPM PT files made up only

Epoxy Resin, Epocast #2

Hardener, HN9810

Hardener, HN985 —— DPM 2359-1 350°F

Hardener, HN9812 —— DPM 2359-3 300°F

Hardener, HN927

Casting Resin, Epocast 31-D

Adhesive, Epocast H1337-B-1

Adhesive, Epibond 1331 A/B

Epoxy Filler, Epocast 87005 A/B

Coating, Epibond 156

Hardener, HN956

Adhesive, Uralane 87504 A/B

Resin, Epocast H1843, Type 4, Grade A

Hardener, HN9216

All of these materials are called "Liquid Plastic"

All are non-restricted, non-flammable.

Flash points are over 300°F.
