Rep. Jack Bergman (R-MI-01): "Parents deserve the peace of mind knowing their children's drinking water is safe. This WIIN grant will allow schools and childcare facilities across Michigan to ensure the water they are consuming is lead free. I'm thankful for the continued commitment by the EPA to protect the health of our next generation."

Rep. Haley Stevens (D-MI-11): "Following the Flint water crisis, Michigan adopted some of the most stringent rules in the country to protect people, especially children, from lead poisoning," said Rep. Stevens. "During this current coronavirus pandemic, it is now as important as ever to protect the public health of our children by ensuring they are not being exposed to toxins in water. I am glad that Michigan will receive critical funding from the EPA to continue this important work."
