SACC Doubts EPA's Ability To Reach Risk Conclusions On Asbestos

EPA's advisors are expressing discomfort with the threshold risk conclusions the agency draws in its draft risk evaluation of asbestos, the last of the first 10 substances the agency is evaluating under the Toxic Substances Control Act (TSCA), arguing it has no or very limited data on which to base its conclusions. FULL STORY

EPA Quietly Revises Model TSCA Order, Sparking Enforcement Debate

EPA has quietly revised its model consent order for reviewing potential risks and approving the use of new chemicals under section 5 of the revised toxics law, a document that an industry lawyer says emphasizes the non-enforcement nature of the process while a leading environmentalist says the document reflects a "scaled back" approach to regulating chemicals. FULL STORY

Intensifying Industry Fears, California Court Upholds Prop. 65 Listing for DINP

A California appellate court has upheld a state committee's listing of the widely used plasticizer chemical diisononyl phthalate (DINP) as a carcinogen under the state's Proposition 65 product warning law, raising the stakes for the chemical sector as it awaits an EPA evaluation under the revised toxics law that could help them fight the state's decision. FULL STORY

EPA Faces Major TSCA Policy Tests As Revised Law's 4th Anniversary Nears

As the fourth anniversary of the revised Toxic Substances Control Act (TSCA) nears on June 22, EPA is facing a series of historic policy tests that will almost certainly determine the scope of the program for years to come. **FULL STORY**

TSCA Takes

Plaintiffs seek to bolster TSCA fluoride case

EPA's attorneys attacked the plaintiffs' science that seeks to show an unreasonable neurological risk from drinking water fluoridation. **FULL STORY**
