Certificate of Recycling

Whereas, Filter Recycling Services, Inc. maintains a recycling facility located at 180 W. Monte Ave. in the city of Rialto, State of California, for the purpose of recycling used filtration units, Filter Recycling Services, Inc. through the use of the Ecofilter recycling process, utilizes all components as beneficial products. By recycling every component of a filtration unit to its highest value, generators effectively relieve liabilities while preserving the natural resources for future generations to enjoy.

Whereas, said recycling method is approved by the Environmental Protection Agency and is conducted with approval from the Department of Health Service, Water Quality Control Board, Air Quality Management District and all local regulatory agencies.

Now, Therefore, Filter Recycling Services, Inc. has issued this certificate to

McDonnell Douglas-Build. 20

and acknowledge receipt of 13/4 55 gallon drum(s) of used filters.
