Kathy, R10 had very little to do with the HQ communication plan especially after it was clear that Pruitt would travel to Idaho for a public event signing with the Governor. R10's rollout efforts focused on managing the national program offices' concurrence with and public notice of the approval action. I've attached a couple process related emails for those activities. The draft roll out document was developed in the early stages when OW was still somewhat involved. In the end, all went well and I was glad to be able to attend the public event in Boise. Let me know if you have any specific questions.

Sincerely, Karen

KAREN BURGESS, P.E.
State Oversight Lead
NPDES Permits Unit - EPA Region 10

Hi Kathy,

Sorry I missed you yesterday. I was out of the office and had forgotten to turn on my notification. Anyway, Region 10 was the lead office on the approval, so I'm looping in Karen Burgess, so that she could share any information that she might have. One thing to note though, is that per direction from the Administrator's office, OCIR ran the roll out and

communication on the approval. So, the program offices were not directly involved in developing the final plan or announcement and related materials.

Thanks!
Nizanna

Subject: communication and outreach plan for ID approval

Hi, I'm helping R4 with FL's effort to assume the CWA 404 program.

By the end of this week, they are supposed to have all documents in place in anticipation of receiving an assumption request package on Saturday (yeah I know). Anyway, can you share the roll-out and communications plan you and region 10 put together for ID. We'd love to crib wherever possible - the thinking being if they approved it for ID they will do so for FL.

Sorry for the rush, the timing on this just all changed. Thanks, Kathy
