Brandi – This is final briefing doc prepared for the administrator. At least I think it's final.

Thanks—got Mary's change but had to send it then per Dave's request.
Here is what went up
Thanks to All for the hustle and good comments,
John

I made Mary's change regarding summer 2018.

I also:

- inserted statement about which recommendations the USACE was using (it dropped in all the editing),
- removed some words and put in contractions again to Simma's so that we could retain the actual recommendations language which was a direct request of Dave Ross as I understood it.

Here is the clean version, I've not had time to do a redline version. I will send a redline version in a few.

I have one important but minor change. We need to make "August 1, 2018" read "Summer 2018". I believe its' in two places in the document. John, I will call you to explain – but I think this is a necessary edit.

Sorry for lateness of this edit.

Tom is reviewing for other items and will send his input soon.

I apologize for the multiple drafts. Here is one more revision, responding to Kathy's request to trim down to one page. This is trimmed to one page and I think slightly clearer as a result.

Hi, folks.

Simma sent another version after Kathy's final summary version from the call (which is the one I had forwarded). I just talked to John and he would like to make sure Mary has had a chance to give it a quick review. I have attached Simma's version. If everyone could let us know if this one works by 10:30, I would greatly appreciate it.

Thanks,
Cathy

Hi, John.

Attached is the paper that has been coordinated by the Region and OWCD (with OGC involvement).

Folks—NLT then 10:00a, would you all take a look at the attached one-pager for use by Dave, Matt, and Trey in their conversation with the Administrator this afternoon. Note that I worked from the staff two-pager that had a couple rounds of review. Did a meeting with Corps Division happen yesterday and are there any key updates to share, Region 4? To get to one page, I had to drop background bullets on ESA, but I think this is consistent with Dave's direction to focus on the Corps retained waters issue.
Thanks!
John
