Subject: Premeeting on Section 10 waters and ESA
Attachments: ESA Issues in FL 404 Assumption 2.6.18.docx; State Assumption Legal Background.docx
Location: Steve's office - can call Phil

Start: 2/15/2018 5:30:00 PM
End: 2/15/2018 6:00:00 PM
Show Time As: Tentative

Required Attendees: Carrie Wehling; Wendelowski, Karyn; Wade, Alexis; Mancusi-Ungaro, Philip

I have just attached materials for the meeting. First is a draft briefing paper to summarize the different views on the scope of waters the Corps should assume. Almost everything on this was taken from prior briefing papers presented to Joel Beauvais or Sarah Greenwalt when she first joined, so review should be pretty easy. I would especially appreciate feedback from **Phil as to whether we should add any Florida-specific information.

I have also attached the ESA paper we used to brief David F. last week; **Phil,** again, let me know if there's anything else I should add.

Feedback of course more than welcome from Carrie and others as well!***

Matt wants to learn about the respective subcommittee recommendations on the scope of waters the Corps should retain, as well as the ESA issue related to Florida's assuming the 404 program.
