Stu Messman
Department of Ecology
4350 150th Ave. N.E.
Redmond, Washington 98052

Dear Mr. Messman:

Enclosed is a copy of a letter report prepared by an EPA contractor following a review of the waste analysis plan for the Chem Pro, Inc., Pier 91 facility. This report indicates significant violations. This matter is being referred to you for verification and appropriate enforcement action.

The EPA contractor will also be reviewing the facility contingency plan and inspection schedules. Upon receipt of review reports, we will transmit them to you. Please maintain all such documents as enforcement confidential and restrict access.

If you have any questions concerning this matter, please contact me at 442-0695, or Andrew Boyd at 442-1256.

Sincerely,

Charles H. Pice, Chief
RCRA Compliance Section
