Subject: New TBA Application and Telework 12/9

Good morning Stan,

Yesterday I received a TBA application for the Former Clinton Engines & Clinton Engines Museum sites from the City of Maquoketa. Do you think Alyssa or Sandeep would be able to help with this site eligibility? The Phase II and Hazardous Materials Survey reports information that I sent to Sandeep is daunting but it would be a great help if this site eligibility could be addressed instead.

I signed on this morning around 8:45am. I will sign off around 3:30 for a haircut but will log back on later to finish the work day. I am still focusing on the Phase II ESAs and Hazardous Material Survey reports. Brad and I sent our comments on the WE Building reports to our contractors and now we are working on our Cyclonic Building comments. We are starting to get into a rhythm.

I would like to setup a check-in meeting with you, maybe on Friday if you are available.

I will also sign my PARs in the new platform today.

Yay, we were fully funded for the TBA program and the interagency agreement! Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Have a good day,

Lisa Dunning
