Thursday afternoon works for me too. I'll send a reply.

Dave, Julie, and Jon -

Thanks for the update. We're all facing challenges in trying to keep the work moving.

The plan is still to get Stuart and me a draft report and follow up with a call? If so, is it doable to get us the draft report Monday or Tuesday, and plan for a call Wednesday or Thursday of next week?

My connections keep getting dropped, like a lot of other EPA folks. Speed wise it is much better this week than last. Actually with the improved work on EPA's end and me having FIOS, my pc is working better now than it ever does in the office.

My situation is the same as Dave's. Connections have been slooooooow (or nonexistent!).

Ok, thanks David. I understand computer problems, I was just able to access EPA's intranet yesterday afternoon and my work drives on Monday. I am still trying to get access to our old email system to find some emails from 10 years ago.

Stuart, I have had significant computer and connection issues the past 2 weeks. I have been trying to continue this effort but been slow. I think they have finally gotten me to about 90% capability. I am not sure of Jon and Julie's status but I need another week if possible.

Hope you and family are well.

Dave

I wanted to check on how the analysis is progressing? I was getting asked at HQ if this was still progressing with the ongoing virus crises. I hope everyone is doing well and safe.
