Hunters Point Naval Shipyard Superfund Site (HPNS)
Update on EPA's Discussions with Navy | Radiological Remediation Goals for Buildings
EPA-California Meeting, March 24, 2021

Teams Link: Ex. 6 Personal Privacy (PP)

Ex. 6 Personal Privacy (PP)

Conference call: Ex. 6 Personal Privacy (PP) | **Code:** Ex. 6 Personal Privacy (PP)

Summary/review of how this discussion began

- Five-Year Review and determining whether the remedies are still protective
- Navy's radiological retesting and future residential use of onsite buildings

Navy's evaluation of the radiation remediation goals (RGs) for buildings

- EPA's position is the Navy should demonstrate the building RGs are protective for future residential occupancy using a risk-based approach (cancer risk range)
- Technically achievability of field equipment for removable fraction (swipe samples)
- Detection limits when determining background ranges

Forthcoming meeting with the Navy on Monday, March 29 at 1 pm

- Emails this week at the Laura/Enrique/Grant/Anthony level
- Calendar invitations should be coming from Jenn Gonzalez at the Navy
- Participants will be:
  - Navy: Laura Duchnak and Derreck Robinson
  - EPA: Enrique Manzanilla and Wayne Praskins
  - CDPH: Anthony Chu and Gonzalo Perez
  - DTSC:
