Hi Bill,

They are unpacked. You don't need the areas right? I had to leave the m on but I can remove those if you need it. These files are trickier because the areas are such huge numbers!

Thanks,
Ingrid

Hi Ingrid,

Here's the file that needs your macro magic. Please just unpack the tab containing all the PFAS information. We will need to unpack the fluorotelomers as well at some point. Please send back to me after you get it unpacked so I have a copy.

Have a nice weekend!!

Bill
