Shari.

Once you get the CES material, please do not spend any LOE on it until we provide you more direction. I expect we will send you an updated TDM next week.

If you have any questions, please let me know.

Thanks. Kate

Hi Rebecca,

Thank you for the response.

Please email me the CBI-version of the response as an encrypted file (preferably in a password-protected PDF), and then call me with the password of the file.

Please contact Shari Ring of Cadmus (cc'd) on method to transmit.

Thanks,
Calvin

Dear David and Calvin,

Per your request, we have submitted our response to EPA's 'Site Characterization Technical Evaluation Comments and Information Request' today via the online GS Data Tool; using the "Information Request" module.

Per our discussion, the version submitted through the Data Tool did not include confidential business information (CBI). I have a second version of our response document with CBI included that I wish to transmit to you via secure means. Could you please advise which method of secure file transfer you prefer? I believe last time – for our initial application submission - I was able to password protect the pdf-file for submission to EPA Region 9. However, I used a different method to transmit the file directly to Cadmus.

Thank you for your time and consideration. We look forward to continued dialouge.

Best Regards,
-Rebecca

Hi Rebecca,

We will upload the attached EPA site characterization evaluation of CES Class VI permit application to the GSDT at a later time, but are providing you a copy of the document for our call today.

Regards,
Calvin
