Attachments: draft CES Class VI UIC Project Overview_01-22-2021.docx

Hi David,

Per HQ's request below, I have made a few updates to the prior CES briefing document (attached). Please let me know if the updates look okay to you, and make any additions/revisions needed. HQ needs this back no later than 9am PST next Monday. Thanks.

Subject: CES Permit Update

Hi Calvin,

I hope all is well. We have been asked by management to put some briefing materials related to Class VI together, including information on the CES project. Attached is a CES briefing document dated for October last year. Would you be able to help me identify what items need to be updated? I am guessing only parts of the EPA Review Status and maybe the Outreach and Coordination sections will need to be updated. If you can think of any additional project details that might be of interest, I could fold that into the Project Overview section as well.

I haven't seen anything come into the GSDT (or at least I haven't received any emails from the system) for CES project submissions. Are they still working through the NHPA, ESA and FR pieces?

Thank you for your time,
Molly
