Hi Calvin, I am okay with the changes, however, I made a minor edit (p.25) in Encl. 3 which is attached. Also, for all 5 enclosures, the "header" that Shari added in the first paragraph should not be in parentheses.

No need for a call, unless there is more you want to discuss. Thanks! David

Good morning David, I have addressed your comments on the revised language that should say "before construction authorization" in enclosures 3 & 5and responded to your two comments on FA. Please take a look and let me know if we still need a discussion. Thanks!

Hi Calvin, I went through all the enclosures and have comments on 2, 3, and 5. A couple comments on financial assurance matters and then a few comments where the revised language inserted says "before constructing the well" or "before construction" which I think should say "before construction authorization" to be clear that we need it to issue the ATC; alternatively, it might be interpreted as only needed before the actual commencement of construction (which could be post-ATC issuance). Let me know if you have questions.
Thanks, David

Hi David,

I have accepted all your redline changes, and Cadmus has checked each follow up question for clarify of timing and added notes about timing where necessary in the attached documents.

Please let me know if I can finalize these documents.

Thanks,
Calvin
