Subject: Request #6 to CES
Attachments: draft Needed Updates to CES Application 4-29-21.docx; Cover Letter for requested CES permit app updates 4-29-21.docx

Hi David,

Attached is the most current version of our Request #6 to CES with your previous comments incorporated. Based on the information on stimulation program provided by HQ yesterday, Cadmus suggests to remove any questions about the stimulation plan from the request – see the redline changes and my notes in the attachment. If the request looks good to you, please sign the transmittal letter, which you already commented on and make edits to. I can issue the request to CES tomorrow's morning.

Thanks,
Calvin
