Tom:
I really like the way that you presented the comments in a word document as line items. Very clear! I worked from the draft report that you attached that had some of the suggested edits marked but not all. I am assuming that you will not be sending the draft report back to Marie-Eve.

Ex. 5 Deliberative Process (DP)

I attached a redline and a clean copy with my edits included. Note that I followed your lead for bolding the more major comments.
Thanks for pulling the comments together! The report reads pretty well overall, doesn't it?
Lynn

Hi everyone,

I did not receive any feedback from anyone on the comments on the Draft WHO report. The comments are due to WHO on Monday, January 4th.

Please let me know if you have any changes, otherwise I will plan to send on January 4th.

Thank you,

Tom

Hi everyone,

Attached are the comments from George and me that I have compiled. The vast majority are line-item grammatical/editorial revisions. I have **bolded** the more substantive comments that relate to technical corrections or EPA/EPA products.

Please take a look and send me additional comments or revisions to these by Tuesday, December 29th so that I can return them to WHO by the Jan 4th deadline.

Please let me know if you have any questions or want to discuss any of these comments.

Thanks,

Tom

Hi Tom,
I agree with George and others; it would be good to have one response document if possible. Tom, do you mind consolidating input from the team and putting it into one document using their template? Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

I'll take a closer look and get you any further comments shortly.
Steve

Hi everyone. I too noted the multiple statements regarding the IRIS chemicals that I offered up during the meeting. I plan to follow up on those. Can you cover the ISA statements? Steve, I was planning on commenting back to Marie-Eve directly after talking with you on the statements that I think came from me. Are you thinking of providing a collated EPA response? That's OK with me! Just let me know!
Thanks for pushing this!

Hi Steve,

We recently received the Draft Meeting report from the WHO meeting in Germany in Sept/October.

Generally, I think it is a fair summary of the meeting. Just a couple of things I wanted to run by you to see if we need to comment.

Ex. 5 Deliberative Process (DP)

If you think there should be any revisions to any of these statements, please let me know and I will compile them and send them to Marie-Eve.

Thanks,

Tom

Subject: Draft meeting report for your comments - WHO expert consultation on available evidence for the future update of the WHO Global Air Quality Guidelines

Dear colleagues,

Thank you again for your constructive participation in the WHO expert consultation on available evidence for the future update of the WHO Global Air Quality Guidelines.

We have prepared the draft meeting report in attached, which summarizes the main discussion points and expert advice you provided.

Please have a look and let me know by **4 January 2016** whether you have any comments. In order to make the commenting process transparent and easier to handle, I would like to ask you to enter your comments in the comment form in attached, by specifying the page and line number accordingly.

I thank you in advance for your review and comments, and in the meantime, I wish you all a festive holiday season and a happy New Year 2016!

Best regards,
Marie-Eve
