Subject: RE: BaP Draft

Thanks Kathleen! I'm sending this today for the White House update. Let me know if there are any changes I should make and/or delete the part where I discuss the dermal exposure factor.

Ex. 5 Deliberative Process (DP)

Sure. Here you go. Materials should be very similar to the communication materials released for BaP concurrent with external peer review, with the exception of the dermal slope factor. The discussion of the dermal slope factor will have to be much more nuanced (you can use the wording in the final email Gina sent to the agency/interagency reviewers).

Subject: BaP Draft

Hi Kathnleen,

I was wondering if you had a draft for the BaP assessment so I can begin writing communication materials for it.

Thanks,
Salina
