Attachments: Top recommendations in the SAB Letter to the Administrator-2-4-16 kh-KN-kh.docx

Here's all I have. I didn't manage to look for high LOE items in the longer portion of the report after all.

Hope any issues can be resolved without ERC. But if they'll be involved before going to other review groups, maybe better to get their buy-in now so that their review can be skipped then? Just a thought, not sure how things should work.

Hi Karen, do you have an updated version for me?

I'm hoping that most of these comment responses can be resolved with input from Vince and Samantha and don't rise to the level of the ERC.

Makes sense. I'm assuming the issues in the letter are more likely the ones to confirm with ERC. But I'll review for other comments that might also involve high LOE tomorrow.

I am shooting for next Wed (Feb 10th) to get Ravi an outline of the major comments and our responses that we want to run by Vince/Sam and or the ERC.

Right now I am just going off the comments identified in the letter, but if you get done with the ones that I outlined and you want to throw in other comments from the body of the report, that would be fine. I'd like to focus on high LOE work and issues that need a policy decision.

Oops, somehow I sent you an interim draft. I'll just use your file to include what I left out and to add replies. Do we have a deadline for getting something coherent to Ravi?

Hi Karen, thanks for starting on these responses. I've added some questions/thoughts in comment bubbles.

Hi Kathleen,
Here are some rough proposals for responding to the SAB Ex. 5 Deliberative Process (DP) Glad to discuss or flesh out further anything not clear at this point. Let me know…
Karen
