Subject: Delivery: Tech Edit and Science Review, IRIS Tox Rev of BaP

Kathleen:

Attached are four files representing the SRC deliverable for technical editing and scientific review of the IRIS Toxicological Review of Benzo{a}pyrene and supplemental information. This work was done under Contract EP-BPA-11-C-0018 (Pre-award No. B12-03) Task Order No. 00255 (SRC Charge No. FA548.CF999.0.003).

Two forms of each document are attached, one with HERO and one with HERONetlinks. The technical review including adding HERO links for all references. The scientific review was restricted to a checking of consistency of information between Chapter 1 text and evidence tables and information in Appendix C. Changes are noted in Trackchanges, and numerous notes to you are embedded in the documents.

We welcome any questions or comments on the changes and the notes.

Peter

Kathleen,

As discussed earlier this morning, there are just a few references questions that need further clarification before we can finalize the documents for delivery. Please see the short list attached (our specific questions are noted as bold, italicized text) and provide guidance at your earliest possible convenience.

Thank you,
Heather Printup

Kathleen,
We look forward to receiving your answers to the tech editing and reference questions submitted by Heather Printup. SRC will deliver the tech edited version as soon as possible after receiving your answers.
