Subject: RE: Chudy SWD transfer to Columbus Oil

I'd say Columbus Oil doesn't have to start submitting monitoring reports to EPA until the Chudy permit is transferred to Columbus Oil. Mr. Lawrence should already have the EPA monthly and quarterly report forms. Ray Urchel

Ray,

I'm just asking about forms and the relevant relation to TA status on filings

Charlie Lawrence with Columbus Oil and Gas is the new operator that's been hired and he's working with MIDEQ and the EPA on testing already.

Thanks,
Frank

> MI-147-2D-0012 -- Mr. Stevens: I got your voicemail this morning. According to our records, we have no monitoring records for this well since November 2016. We do not have the 4th quarter (October – December) fluid loss for 2016. The last lab analysis of the injected fluid was 2015. If the well has been inactive, there is not a sample available to collect for the lab analysis.
>
> The well, formerly owned by Northeastern Energy Corp., appears to be in TA status. According to our records, the last MIT was 12/3/2014. Wells in TA status must test every two years; the Chudy 2 is due. I'm cc'ing Felicia Chase of EPA. She can assist you. Ray

Ray,

Thanks again, and to be clear as the Chudy SWD well owner, the point of this email is to get an understanding of the new operating company requirements and transfer process.

Andrew,

If you could provide a contact number, this shouldn't be very lengthy conversation.

Thanks,
Frank

the application arrives here. I also am cc'ing Lisa Perenchio, my supervisor. (This Chudy well formerly was operated by Northeastern Exploration of Denver, CO.) Ray Urchel

Hello Ray,

Thanks for taking the time to chat last week on the Chudy, as we discussed can you forward the person who can give me some idea of how the new operator and requirements, timeline for transfer will be.

Frank Stevens
