Subject: HOLD: OCSPP Café on Pollinators: "What's the Buzz?"

Start: 6/23/2021 3:00:00 PM
End: 6/23/2021 4:00:00 PM

Show Time As: Tentative

Required Attendees: OCSPP ALL; Smith, Andrea B.
Optional Attendees: (unknown property type)

Here's the information on how to connect, from the main invitation:

Dear Colleagues,

Please join us to celebrate *Pollinator Week* at our next **OCSPP Café on Pollinators: "What's the Buzz?"** on **Wednesday, June 23, at 11:00 a.m.**

Justin Housenger and **Dee Colby** of **OPP** will discuss their careers, the overall issue related to pollinators, the latest science, EPA's role, and what each of us can do to help pollinators. There will be an opportunity to ask questions.

We hope you are able to participate and hear about the exciting work of our colleagues in OPP and why pollinators are important!

Dee Colby joined the Registration Division in Invertebrate & Vertebrate Branch (IVB3) in 2016. She has held positions as a Risk Manager/Entomologist Efficacy Reviewer, Senior Regulatory Specialist/Entomologist and is now an Acting Branch Chief for IVB3. In her roles, Dee has served as a subject matter expert for pesticide products used against social insects and as an executive secretary for the managed pollinator protection plans national metrics committee (a PPDC Workgroup). She is a member of the OPP workgroup to evaluate the national impact of efforts to mitigate potential exposure of pollinators to pesticides, provides recommendations on mitigations, and organized a webinar on Engaging Stakeholders Toward More Effective Communication, Collaboration, and Cooperation. Dee serves as a liaison with USDA/FDA for products for use in hives, devices and companion animal issues. She has chaired a committee that reviews pesticide efficacy (PERC) and co-authored the revised Fire Ant Guideline.

Justin Housenger joined OPP's Environmental Fate and Effects Division (EFED) in 2009 as a biologist responsible for evaluating ecological toxicity studies and conducting environmental risk assessments in multidisciplinary teams. He has worked on a variety of projects addressing program needs that range from endocrine disruption, issues related to environmental exposure to rodenticides, and pollinator protection through work supporting high profile chemistries that include pyrethroids, the neonicotinoids, and sulfoxaflor. More recently, he served on the steering committee along with other members of EPA and USDA to plan and develop the first-of-its-kind pollinator state of the science workshop to help identify priority research areas that can address unmet needs in pollinator research and identify improvements to existing areas.

All the best,
Tom

Thomas Loy Tyler, Esq.
