Dean Hill: FTS 776-8138 [FTS 382-2663 teleconferencing]

(202) 245-3626

7/10/91

<Conf. Call w/ PRC
NEIC>

- Glad to see development in their environmental program, but their EBE's need expansion and more initiative on their parts →

---

[Meg Pietrasz - attorney for PRC
Dean Hill - NEIC
David Jones -
Cyrus - chemist PRC and Ray
Kathleen Tripple PRC]

---

Dean - notice in from sample # to chromat. (Example)

Pathy says that EPA never requested the testing for oil sample in question

- just send a test (Exhibit 4)

Ray - do duplicates when applicable -

Data Audit - samples from systech (Dean)

[Get reviews from Systech and PRC
clean up raw data should reflect procedure done at the time
17, 18, 19 → 23, 24 - 25, 26]

11/10/91

* Glad to see development in this environ. program, but the EBE's need expansion and more initiative.

EBE's :

- SCHOOLS -

A. · Why not Junior High and High Schools?
· Kids of 16-18 yrs. are driving . .
· If stays in the elementary schools - then you (PTA) must get to the parents somehow - a kids coloring book is not enough

B. · Mr. Oil Drop: again the oil disposal kits should get to the parents - put out flyers that you have these oil kits - make them available to community when it is more appropriate than to school children

C. · What does it mean to 'encourage' recycling in Signal Hill and Fontana? ESTABLISH A PROGRAM

· The advertisements; what are they like? How big? How impressive? It takes more to encourage recycling by just placing advertisements.

- OIL RECYCLING -

A. The used-oil recycling may be a good idea, but oil is just one household hazardous waste . . We would like to see a complete household hazardous waste (community wide) collection ~~day~~ weekend - [CHECK TO SEE IF THIS IS ALREADY IN PRACTICE IN SOME COUNTIES]
- Organize
- Pay for
- Advertise (in advance)
- Have literature →

- Keep program for 2 yrs. after the community has. waste drop get the kits to the right people - if drop goes well do them annually.

B. Comm. Recycling Centers -

- What is PRC will offer guidance to communities PRC should establish the recycling program and pay for it

- What is offering assistance? → PUT RECYCLING INTO AFFECT

PRC needs to show more initiative in developing the programs

? Oil Filter Recycling

In process now? Good idea, but can't give credit if is ongoing

65,000 proposed) → 45,000 :

| | | |
|---|---|---|
| | 65,000 | |
| | 9,750 | (good faith 15%) |
| | - 10,000 | (Count III level 2 → 4 20,000 - 10,000 |
| # | 45,250 | |

For right now: only 10% more

With hard core committed EBE's : 30% = ~31,675
