Dear All,

Another day, another CCUS email. Here are CEQ's response to feedback. OMB is only sharing it as an FYI so no action required. Thanks again for all the work you've all put into this.

Hi – How about another email from me on this CEQ CCUS report? ☺
In case your program contacts are interested, attached you'll find CEQ's response to interagency feedback. OMB shared this as an FYI. Final decisions were made on the last round of edits. Most changes were accepted but some were rejected.

I asked for the final report and will share it when I get it.

Take care,

Karen.

Good afternoon,
Going through my emails, I realized that I confused tracking this one with the other LRMs that came in Thursday through Monday while I was out. Apologies that OAP was not afforded the chance to review and comment on this second round, especially since I know it to be an important part of OAP's portfolio. For your reference and as noted in Karen's email below, EPA provided no comments to OMB on the original request for feedback, although OAR did submit proposed edits. I'm sending this along for your awareness, it looks like some of the initial concerns you noted were addressed but not all.
Once again, my apologies for this oversight.
Thanks,
Kristina
