Hi,

I wanted to send the attached preamble outline and notes around again and then have a conference call to discuss and address. The notes file contains questions/issues that either the workgroup resolves or I'm going to need to get a decision from my management (hopefully with your recommendations). If you are unavailable for the call, please feel free to send me an email with your thoughts - I'll add them to the discussion.

We are a little bit on hold now because my management would like us to use the final NAEMS emissions estimating methodology results in the preamble and rule; however, I think there are other issues that we should resolve now, so we'll be ready to go when the final NAEMS results are in.

thanks,

Lynn
