Subject: Mendota Carbon Negative Energy Project, CalGEM, and EPA Region 9
Location: Microsoft Teams Meeting

Start: 10/28/2021 4:00:00 PM
End: 10/28/2021 5:30:00 PM
Show Time As: Tentative

Recurrence: (none)

Dear All,

Representatives from the subsurface and permitting/regulatory teams for the Mendota Carbon Negative Energy Project ProjectCo LLC ("MCNEP") are in the process of applying for a Class VI UIC Permit from EPA Region 9. We would like to have a virtual meeting with you to align on well construction details for the proposed characterization and injection wells (~10,000 feet bsg) because of subsidence in the project area. Additionally, we would like to understand your point of view and regulatory/environmental concerns regarding management of potential calcium carbonate and/or salt precipitates in CO_2 injection wells. Our proposed/draft agenda is:

- Introductions – 5 min
- Mendota BECCS Project Overview – 10 min
- Subsidence - 30 min

  - Presentations of findings in Mendota, compared with regional data
  - Proposed path forward (discussion)

- Well Construction – Design considerations for characterization and injector well (15 min)
- Management of salt/calcium carbonate deposits (potential for acidification or well stimulation) (15 min)

Please feel free to propose a different date time if this date does not work for you.

Thanks and Best Regards,
Roya
