Thanks Jan, for finding a time that looks available for all (cc'd here as FYI)

James and I appreciate RB-2 staff giving us time; Our goal is to share awareness of the proposed project, and any potential water quality concerns related to its proposed activities (such as those related to your dairy and confined animal facilities programs, grazing program, and ag program (e.g., uses beyond livestock).

Please join us on the following conference line (limited to 5 lines coming in) – I think it should be enough for us!
