Please let me know if you have any issues that the RA should raise on her monthly meetings with WV or PA.

Steve, can you go ahead and update the CRW write-up? I appreciate you doing this each month.

Thanks,
Mark

Hello ECAD Managers:

The baton has been passed from Zelma to me. **By the next Tues, Sept 28, 11am**, please submit your proposal for any critical hot and/or emerging issues that you feel the RA should raise during his monthly meeting with **WVDEP and PADEP**.

**You have the option** of either emailing me PRIOR to the managers meeting (preferred), or raising the topic during the meeting to confirm it should be included this month.

Please respond to this email with "no input" if no hot issues for your group.

For context, we submitted the following topics last month:

---

**WVDEP**

Nonresponsive based on revised scope

**PADEP**

Nonresponsive based on revised scope

**Capital Region Water (CRW):**

- On August 24, 2021, EPA and PADEP met with Capital Region Water to discuss the draft amended Consent Decree (CD). The discussion was productive.

- Both sides need to clarify several Long-Term Control Plan (LTCP) issues like sensitive areas and pollutants of concern.
- The parties need to work out when the LTCP will be due and a schedule to do the most serious repairs to the system, including installation of solids and floatable controls for CSO outfalls.
- The next settlement meeting is scheduled for September 14, 2021 to discuss the amended partial CD's injunctive relief provisions and its associated schedule.
- All parties are waiting for the Court to make the decision on the Lower Susquehanna Riverkeepers Association Motion to Intervene as to whether to allow them to become co-plaintiffs.
