Subject: CRW: Follow-Up Materials
Attachments: crwparagraph15bmarkupofdojversion092121.docx; crwregulatorinfo.docx; crwcollectionsystemprogram.docx; crwbidinfo.pdf; crwinterceptorprogram1.docx; crwinterceptorprogram2.docx

Flag: Follow up

Hi all,

We received a number of documents from CRW. The attachments are not large, so I am sending them directly out rather than going through Box.com. The materials are:

1. H&H modeling: CRW's proposed revisions to Paragraph 15(b) are attached.
2. Collection system: Attached are a narrative description of CRW's collection system improvement program, along with bid information as to one specific project, which was requested.
3. Interceptors: Narrative explanations of CRW's programs as to the Paxton Creek, Spring Creek, and Front Street interceptors are attached (one document for Paxton Creek and Front Street, and the other as to Spring Creek).
4. Regulator structures: A memo is attached that explains the program and schedule for addressing the regular structures.

CRW expects to share the following information later this week; Brad and I will share whatever we receive, or let you know when the materials have been uploaded to Box.com:

1. AWTF projects: We will provide a chart of projects from the last few years, and examples from the next few years.
2. Agreements with City: We will provide draft revisions to Paragraph 10 that reflect the existing agreements with the City.
3. Decentralized green/gray: We will provide a list of example projects for each planning area, which are intended to be examples (but not to be included in App. B).
4. Solids/floatables: We will provide the current schedule and an explanation of the schedule.
5. Outfall activation: We will provide proposed revisions to the decree language, along with a memo explaining selection of the 10 representative sites.

If you continue to have trouble accessing Box.com, **please create a new account as a first step**. I understand that you have to create a new account even if you had an old one with the system. Once you've created your account, let me and Brad know so we can get you access to the CRW folder.

Thanks,
Devon
