Importance: High

Hi Gloria,

To protect the confidentiality of Milliken's link to the PMN, can you either send the report only to David (removing me from copy) or fax directly to me at 864-503-6186? Sorry to add more to the request!

Thanks so much,
Stacey

Hi Gloria,

I am just following up on the email below regarding the eco-tox report and scheduling of a call with you and your ecotoxicologist two weeks from now.

Thanks and have a nice weekend,

David

Hi Gloria,

Just want to make sure I mention to the group that a call with the Agency in two weeks would necessitate one or more 15-day or longer suspension for the PMN review, which I assume you and Stacey can work on at the appropriate time.

Thanks,
David

Hi David,
It's currently being sanitized. I should be getting it to you this week. Unfortunately, the ecotoxicologist is not free this week so maybe we should work on scheduling for 2 weeks from now.

Best,
Gloria

Hi Gloria,

I am just following up to see when you may be able to send us a copy of the eco tox report that you mentioned in your earlier email (highlighted below). That way we can finalize any agenda item or provide any questions we have in advance of our proposed call at the end of this week.

Thanks much,
David

Hi Gloria,

Thanks for your response. We would definitely like to receive and review a copy of the ecotox report prior to our call. If you can send it to us via email, that would be great.

In terms of the agenda and questions we may have for the call, our main purpose is to get an understanding of EPA's thought process and concerns on this issue, so we can see if we can gather the necessary information to respond to the Agency accordingly. If we have any specific questions, we will share with you beforehand.

Finally, in terms of schedule for a call, we are hoping this Thursday or Friday will work for you and your team, as I am traveling out of the country next week. Please let us know if that may work.

Thanks,
David

Hi all,
I am checking with the eco assessor to find dates that will hopefully work for everyone.

In the meantime, it would be best if you could provide specific questions and/or an agenda before the meeting, so the assessor can prepare. If the questions have CBI, please fax to my attention.

Lastly, do you need the eco tox report so you can see where the hazard concern is coming from or do you think you have a good idea of how we reached our COCs.

Best,
Gloria

Hi Gloria,

Greetings! I would like to follow up on Stacey's email below and ask if you can kindly check your schedule next week and that of your ecotoxicologist so my colleague Linda Martello (copied herein) and I can have a phone call with you to understand that Agency's current thinking on the PMN substance so we can try to move the review process forward.

Please let me know, and I will also try to give you a call next week.

Regards,
David

Hi Gloria,

Sorry for the multiple emails! We are working with Ramboll (specifically David Liu and Linda Martello) to help us with our ecotox evaluation. I spoke with David this afternoon, and he thought a call with you and your ecotoxicologist and Ramboll would be very helpful to make sure we are all aligned. Would you have any availability next week for a brief conference call? I've copied David in on this email as well to hopefully streamline scheduling. Thank you again for everything!

Kind regards,
Stacey

Hi Stacey,
Thanks for sending me an email. There was something weird with my phone last week and I don't think I got your voicemail. I am putting in the suspension now. Please let me know if anything changes.

Best,
Gloria

Hi Gloria,

I hope you are well! I left you a message last Thursday, and have tried to call a few times since, but haven't been able to reach you (and then I was out for a personal issue). I hope everything is OK. I wanted to make sure you received my message that we wanted to suspend our review for the 15 day period as discussed early last week. We are working with our ecotoxicologist and should be back in touch with you shortly. Please call me if you have any questions in the meantime. I really appreciate all of your help!

Kind regards,
Stacey
