Hi Paul,

Thank you for the quick response. Talk to you all next Tuesday!

Best,

Terry

Terry,

Liz has notified the contractor to retain the RSY pads to remain undisturbed until we have further discussions with the agencies on a path forward.

Thanks!

V/r,
Paul

Hi Liz,

Thank you for the report. CDPH will review the data and summary in the report thoroughly. We will let you know our comments and questions after we finish the review process.

In the meantime, CDPH requests Navy to keep all the soil on RSY Pads where these Sr-90 soil samples originated from (RSY Pad 33 Use 1 and RSY Pad 4 Use 1) undisturbed.

Please let me know if you have any questions.

Best,

Terry

Good Afternoon Wayne/Nina/Terry,

I've attached a summary of the Navy's evaluation of the Strontium-90 results we have been discussing. There are two summaries, one for TU-79 and for TU-124, with nearly identically evaluations.

We can discuss on our regular Tuesday call, and set-up a follow-up meeting to dedicated to discussing the results and evaluation.

Thanks!

Very Respectfully,

Liz Roddy
