Hi Maeve,

Thanks for the heads up. I spoke to Wayne about this briefly on today's call. Currently the Navy and APTIM are working on addressing a contract modification that includes the details regarding the new meteorological equipment. Until the modification is awarded the equipment installation is postponed. I will follow up with you on a better schedule update for the installation of the equipment once the modification is awarded. I assume at least a month of coordination is still needed prior to awarding the modification.

Very Respectfully,

Liz Roddy

Subject: [Non-DoD Source] RE: Parcel G Weekly Progress Report - 1pm Agenda

Hi Liz,

With no air monitoring data/topics I won't be attending today.

One thing that I wanted to check in on is the new meteorological equipment. Any update on when that will be installed?

Thanks!
