Hi Yolanda,

We can discuss at the BCT Meeting tomorrow.

Derek

Subject: [Non-DoD Source] HPNS | September 2021 open house event

Derek,
We look forward to hearing the Navy's report out of the virtual open house event. I know these events are a lot of work and really want to lift up the Navy's innovative efforts to host these two events this year. Thank you for asking your contractor to share new materials with EPA prior to the even for comments and suggested edits.

I wanted to check-in on your commitment at the September 9, 2021, BCT meeting to have a post-event frequently asked questions and answers document (FAQ) on the questions that are asked through the platform. This commitment came after DTSC and EPA expressed disappointment with the Navy's decision not to host a live question and answer session at the virtual open house event.

Subject: HPNS | Planned open house event Sept 13-16

Heather,
I wanted to check-in on the Navy's planned virtual open house event on the BCT Calendar for September 13-16. Does the Navy still plan to support this event on the scheduled dates?

If the Navy plans to continue with the event on these dates, could you please:
- specify the advertising strategy for the event;
- provide the draft updated slides/information from the March session, specifically information on the Parcel G work, for regulatory agency comments; and
- schedule a meeting to discuss how to communicate the Strontium-90 data.

Thank you, in advance, for your time on this matter. Such virtual open house events help to transparently provide information to the public. However, such events are a substantial amount of work and requires coordination among many people.

Please advise,

Yolanda Anita Sanchez, MS, MPA
